

A YOUNG HAMLIN fellow and his light o' love were strolling through the fields down McCaulley-way the other June day when out of the clear, a gigantic bull broke out of a fence and came charging at them.

Quick as a flash the boy dashed for safety, his girl trailing behind him.

"Howard," wailed the young lady when they had reached safety, "I am disappointed in you. You were frightened, and you told me this morning that you would face death for me!"

"I know I said that," agreed the exasperated male, "but that bull wasn't dead!"

AN INTERESTING sidelight in a little magazine we picked up the other day caught our admiration. In case either of our two readers failed to see it, we want to reproduce it here...

My small twin sons came home from school one afternoon bubbling about an innovation which their teacher had proposed for the next day's lunch period. It seemed that each little boy was to invite a little girl to be his luncheon partner, in order that the children might learn social conversation.

One of the twins, who has had an eye for feminine charm since kindergarten, was overjoyed about having been accepted as partner by a little girl whom he described as "just beautiful!" The other little fellow, a bit shyer around the opposite sex, said little. So, after enquiring with my younger Murray over his delightful prospect I turned to Mike and asked, "Darling, did you invite a little girl, too?"

"Oh, yes," he replied mildly. "And she pretty?" I pursued. "Well, no—not so very pretty," he replied hesitatingly, adding, "In fact, she is not pretty at all. I guess she is probably the ugliest girl in the whole school!"

Puzzled, I ventured gently, "Well, how did you come to invite that little girl, darling?"

I shall never forget his reply. At an age when most children are usually sole center of their little worlds, he answered simply, "I was afraid if I didn't ask her, maybe nobody would!"

HEARD OF the Stamford lawyer who the other day, after winning a case in court at Anson, tried the easy payment plan on one of his clients.

"Now that we've won our case," smiled the lawyer, "there's the matter of my fee. I would like you to pay me \$500 down and \$100 a month."

"Sounds like buying a car," commented the client.

"I am," explained the lawyer.

MORE TART BRIEFS that we have assimilated recently include this batch:

Most little girls today are in too much of a hurry to grow up and wear shoes just like those that kill mother.

We don't know how fast our car will run; nor do we know how far we can lean out of the top window of a skyscraper.

Cooperation would solve many problems. For example, fleckles would make a nice coat of tan if they'd just get together.

Minds often run in different channels—particularly when there is only one television set in the home.

It isn't what a wife says that bothers most husbands. It's the number of times she repeats it.

Often it pays to go the last mile. That's where the best motels may be.

Not that we recommend it, but you can always make a splash going off the deep end.

The Country Parson

"When we pray we ought to be careful that we don't ask for all the things we don't have—whether we need them or not."

A COMMISSION FOR COUNTS—Lieutenant Joe E. Ford of Hamlin pins a second lieutenant bar on the collar of Walter D. Counts of Knox City, who received his commission during the first week of National Guard camp at North Fort Hood. Ford, Company commander of Stamford's Company A, and the local unit are currently undergoing training at the two-week National Guard summer training with the 36th Division at North Fort Hood.

# Carlton Essay Wins WTCC District First

Jerry Carlton, son of Mr. and Mrs. Weldon Carlton of Hamlin, was declared Region V winner last week in the West Texas Chamber of Commerce annual essay contest sponsored by the industrial development committee. The essay also placed second in the regional contest.

A \$250 college scholarship will be awarded Brenda Elliott of Munday for winning the fifth annual essay contest, WTCC Industrial Development Committee Chairman E. L. Buelow has announced.

Buelow, said Miss Elliott edged by entries from Jerry Carlton of Hamlin, which was judged in second place, and from Paul Branson of Bowie, which was judged in third place.

Runners-up were Charles Aycock of Tulla, Geraldine Henderson of Lamesa and Pat Donahue of De Leon.

Subject of the annual essay for high school seniors which was begun by the WTCC in 1955, is "What My Town Can Do to Have More Industry."

## Singing Set Sunday At Hanna Church

Regular second Sunday singing of the area will be conducted at the Hanna Baptist Church, 10 miles southeast of Hamlin, Sunday afternoon, according to Larry Holmes, chairman of the arrangements committee.

Singing will get underway at 2:30 o'clock, to which the public is invited, say promoters.

## National Guardsmen Keep Busy with Drilling Exercises and Chigger War

The blistering sun accompanied by the minute scourge of the outdoorsman—the almighty chigger—began to take its toll of National Guardsmen this week at North Fort Hood, and "casualties" will likely soar into the thousands, declares a release from the camp to The Herald.

Throughout the entire 36th Division, which is undergoing two weeks of summer training there, men were wiping their dripping brows with one hand while scratching their legs with the other.

Despite fairly high winds whipping through the sprawling military layout, the temperature has climbed into the 90s each day. Chiggers have climbed into everything everywhere.

Stamford Company A, under the command of First Lieutenant Joe E. Ford of Hamlin, with personnel from Stamford, Hamlin and the surrounding area, has opened all-out war on the ruthless chigger. But, according to unofficial reports early this week the troops were fighting a losing battle.

But, the most pressing matter confronting all units of the division was the major reorganization of the 36th. In the most sweeping reorganization since 1940, when it was "triangularized" for World War II, the division on March 16 this year was modernized into the atomic age "polygonic" organization.

Greater mobility, more firepower and more efficient communication were the goals. These were achieved by the Army's new five-sided infantry division.

The three regiments gave way to five infantry battle groups; the four artillery battalions became five direct support howitzer battalions and a rocket equipped general support battalion. Four-company engineer and tank battalions gave way to five-unit organizations and an armored recon and a transportation battalion were created. Communication potential was increased by the expansion of the signal company into a battalion.

Announced March 16 by Governor Price Daniel, the reorganization of the entire Texas National Guard was achieved without loss of guard troops in any Texas city.

Almost 10,000 guardsmen of the 36th Division, commanded by Major General Carl L. Phinney of Dallas, began Sunday, June 28, and will conclude training July 12, when units return to home stations.

## Dwain Jones Is New Salesman for Green

Dwain Jones, formerly of Abilene, this week accepted employment as salesman for John F. Green Motor Company, Dodge and Plymouth dealer.

Jones has been associated for six years with the Commercial Credit Corporation at Abilene.

He and his wife have two girls, Connie, three years old, and Kim, 10 months old. They have purchased the former Loy Fry home at 144 Northwest Avenue C.

# \$100,000 Water Bonds Okayed by Six to One Vote

## Arrangements for Helen Poe Lecture Shape at Library

Mrs. J. C. Rollis, program chairman of the Hamlin Woman's Forum, announced at the meeting Tuesday afternoon at the Harden Memorial Library of the group that Helen Poe, world traveler and lecturer, had been secured for a September 21 benefit program in Hamlin.

Miss Poe is one of the hard-to-get guest speakers, and the program committee was able to get her only by making the arrangements months ahead.

Mrs. J. E. McCoy Jr., chairman of the community service committee, reported that a story hour will be conducted beginning Friday, July 10, at 10:00 till 10:45 o'clock in the morning for children five to eight years of age. The project will be at the library rooms.

A constitutional change in the time of meeting was recommended. That the forum meet on the first Tuesday afternoon at 3:00 o'clock in the months of September, November, February, April and June. This amendment will be voted on at the next regular meeting of the forum, composed of representatives from Hamlin women's and civic clubs.

The library committee reported that 196 books had been checked out during the quarter from April through June, and that there are now 1,430 books in the library at this date.

Mrs. Tate May moved that the building committee be authorized to renovate and make usable the kitchen of the library building.

Mrs. R. D. Moore, newly elected president, presided at the session.

Treasure chest of the Hamlin Appreciation Day grew to more than \$500 last week-end when the usual Saturday afternoon drawing was not held because of the Fourth of July holiday. The amount will be \$519 for the Saturday afternoon drawing at 4:00 o'clock next to the bank on Southwest Third Street.

Consolation prizes from three participating merchants will be given to three subsequent coupon holders after the first main ticket is drawn that will share in the treasure chest pot. Giving the consolation prizes will be Bluebonnet Cafe, Carl Murrell Chevrolet Company and Market Poultry & Egg Company.

No drawing was staged last Saturday because of the observance July 4 as a holiday.

## Appreciation Day to Have \$519 Cash Pot

Development of a new oil field in the area about one mile northeast of Hamlin seems eminent with the bringing in last week of a good producer on the B. H. Gardner place.

Potential has been taken at the Swastika Sand discovery well in Jones County. The wildcard is Daya Operating Company of Abilene No. 2 B. H. Gardner test, located in Section 174, Block 1, B. B. B. & C. Railway Company Survey.

No. 2 Gardner had a daily potential of 110 barrels of 41-gravity oil. Flow was through a 16-64-inch choke with packer set on the casing and 100 pounds tubing pressure.

The well is producing from an open hole at 3,508 to 3,518 feet. Gas-oil ratio was 800 to one. Location is 2,900 feet east of production in the Hamlin (Swastika) Field, but separated by No. 1 Gardner, a 3,650-foot dry hole.

To an experienced politician the election of 1960 is underway.

SEAWALL CONSTRUCTION—Work progresses on the steel and concrete extension of the sea wall on Galveston Island designed to protect the Gulf Coast resort city from attrition by the Gulf of Mexico. The current extension will be for a distance of 16,300 feet beyond the southwest tip of the existing wall and will cost an estimated \$11,080,000.

# Rotan Gypsum Plant Strike Affects Hamlin Area Workers

## New Oil Discovery Northeast of City Portends Spread

Development of a new oil field in the area about one mile northeast of Hamlin seems eminent with the bringing in last week of a good producer on the B. H. Gardner place.

Potential has been taken at the Swastika Sand discovery well in Jones County. The wildcard is Daya Operating Company of Abilene No. 2 B. H. Gardner test, located in Section 174, Block 1, B. B. B. & C. Railway Company Survey.

No. 2 Gardner had a daily potential of 110 barrels of 41-gravity oil. Flow was through a 16-64-inch choke with packer set on the casing and 100 pounds tubing pressure.

The well is producing from an open hole at 3,508 to 3,518 feet. Gas-oil ratio was 800 to one. Location is 2,900 feet east of production in the Hamlin (Swastika) Field, but separated by No. 1 Gardner, a 3,650-foot dry hole.

To an experienced politician the election of 1960 is underway.

TO VISIT LONG—David Rankin, 14, of Texas City, who met Louisiana Governor Earl Long at a Galveston hospital, has been granted permission by his parents, Mr. and Mrs. Frank H. Rankin, to visit Long. But the parents said they had not agreed to permit Long to adopt their son, as the governor had announced.

## Federal Mediator Meets with Union And Firm Groups

No agreement had been reached Wednesday morning in the strike at the Rotan plant of the National Gypsum Company, where a number of people from the Hamlin territory are employed. However, federal mediators from the Dallas district office were on hand Tuesday in an effort to get the union strikers and company officials together on a wage and hour agreement.

Members of Local No. 74 of the United Lime, Cement, Gypsum and Allied Workers International Union went out on strike last Wednesday. About 190 hourly wage workers are affected by the strike.

Pickets remained at the plant entrance over the week-end, the round-the-clock picketing maintained by the gypsum hourly wage workers. The 22 salaried workers have remained on the job.

The strike at Rotan is one in a series, being conducted by the gypsum and cement workers of the nation. Three plants of the Celotex Corporation, which has a plant at Hamlin, have been affected in the north central portion of the country. Two of the three disputes had been settled by the Celotex plants, local Celotex people told a Herald reporter Tuesday.

Because of the strikes at other Celotex plants, the Hamlin plant worked around the clock for several weeks in order to make up production slumps at the other plants.

Production Superintendent D. W. (Wood) Cowan of the Hamlin Celotex plant said Tuesday no reverberations had been heard in the plant here from the Rotan strike. The wage workers' contract with Celotex expires in November, he said.

However, rumors around town Wednesday were that union employees at Celotex had held conferences recently about possible new negotiations soon with Celotex here.

## No Arrests Made in Burglary at Sylvester

No arrest had been made first of the week in connection with the burglary last Thursday night of the Guy Mauldin Texaco Service Station in Sylvester, according to Fisher County Sheriff Bus Rollins.

The burglar reportedly entered the station after breaking a window and turning a lock. Several cartons of cigarettes and some spark plugs were missing.

Mauldin reported the theft about 6:30 a. m. Friday when he opened the station.

## Story Telling Series Slated for Children

A series of story telling hours has been arranged for children of the community at the Hamlin Memorial Library under sponsorship of the Hamlin Woman's Forum.

The story hours will be held each Friday morning beginning at 10:00 o'clock starting tomorrow, Friday, July 10. The story sessions will last for 30 minutes.

Leading in the story hours will be Misses Tate May, R. D. Moore, Jack Vaughan, L. H. McBride, J. E. McCoy, E. D. Perrin, M. T. York. High school girls will assist in handling the children.

## Four Hamlin FFA Representatives Go to State Meet

Delegation of three boys representing the Hamlin High School chapter of Future Farmers of America will go to Austin July 13 to 17 for the thirty-first annual convention of the Texas FFA.

Headed by Clyde Hodnett, vice president, the group will be accompanied by T. C. Blankinship, vocational agriculture teacher and FFA advisor. Others in the party will include Ray Johnson Jr., reporter of the Hamlin chapter, and Jerry Crowley. Young Crowley will receive the Lone Star Farmer degree, highest award to be made by any state FFA association.

Some 5,000 other Future Farmers are expected at the convention, to be held in the new air conditioned municipal auditorium at Austin.

In addition to business sessions, the young conventioners will be taken on a tour of Austin, swim in the famous Barton Springs pool, attend a "fun night" featuring top FFA talent and professional acts, attend the huge Lone Star Farmer banquet and grant honors, scholarships and awards to deserving Future Farmers and adults.

Local arrangements for the convention are being made by 15 committees, headed by General Chairman Lewis Bracy.

## New WTCC Director Committee to Select

L. E. (Gene) Prewit has been named chairman of a committee to nominate a Hamlin director to the West Texas Chamber of Commerce. Present director is Fred Smith.

Notification of appointment of Prewit came from Fred H. Husbands, executive vice president of WTCC. Other members of the nominating committee are: Fred R. Moore Jr. and Willard Jones.

HONORARY MEMBERS—Pianist Van Cliburn of Kilgore runs through a chord for House Speaker Sam Rayburn at Graceland Club, a Dallas club dedicated to millionaires. Regular club members must have a financial rating of \$100,000, but Van Cliburn and Rayburn are honorary members.

## AND JUST HOW MUCH IS A BILLION DOLLARS?

"The Mangled Math Department is back on duty with 'how big our national budget is,'" reports Editor W. M. Courtney of The Wynne, Arkansas Progress in his (not so) Casual Chat column.

Lead each of 212 big trucks with five tons of dollar bills, he continues, and you've got a billion bucks. Lay those bills end-to-end and they'd circle the earth four times, but we're sending it overseas faster than that.

Th truck caravan is hauling only one billion dollars. We are spending the times that much year above what we take in.

To haul the entire federal budget for one year in dollar bills would take 16,566 five-ton trucks loaded to capacity.

On a ton-mile basis, it would take around 1,654 gallons of gasoline to move this load one mile.

A dollar bill doesn't weigh much, but the federal budget in dollars would weigh 82,680 tons, or 165,360,000 pounds.

Just how much is a million?

And as long as we are on the subject, we might also quote from an article by Frank L. Remington in a recent issue of Ethyl News,

published by the Ethyl Gas Corporation and edited by Richard F. Cook:

Since it takes 1,000 millions to make one billion, don't get the idea that one million must be a measly amount—only three-quarters of a million days have passed since Julius Caesar ruled the Roman Empire.

Try counting a million one-dollar bills and you'll really appreciate what a huge chunk of cash it is. Tallying at the rate of 60 bills a minute for a full eight-hour day, five days a week, it would take almost seven weeks to do the job.

Remington asks us to bear in mind that a billion dollars which comes next on the "astronomical figures tour" is only one-seventieth of the present annual budget and one two-hundred-and-eightieth part of the national debt.

How do you reach a billion? he asks. Here's one way: Ride on the propeller of an airplane traveling at a speed of 300 miles per hour and you'll go around a billion times—if the propeller spins constantly 24 hours a day, seven days a week, for two whole years.

And if you are not yet dizzy—and a little scared—w might as well give up at this point.

## Flippant France Again

As allies, the French have developed a tendency to be almost completely unreliable. This trend was again confirmed in recent days when France decided not to play ball with NATO's naval command in the Mediterranean and to announce that it was taking over full control of the French Mediterranean fleet, in the event of an emergency.

One of the primary obligations of NATO members (and this organization has perhaps safeguarded peace in Europe more successfully than any other one thing), has been the willingness of member nations to place certain forces at the disposal of the NATO supreme command.

Luckily, most of the nations who participate in NATO have been responsible in carrying out their military obligations concerning NATO. On the other hand, it cannot be denied that the French have been irresponsible on a number of occasions, and the French have not supplied the Army divisions on which NATO plans were laid years ago.

In addition, the Communists in West Germany are not strong, nor are they strong in England. On the other hand, despite the great comeback of General Charles de Gaulle, the Communists have recently demonstrated that they have the allegiance of at least one in four voters in France.

With such Communist strength in any country, it is difficult to see how that country can be depended upon as a solid ally.

## Nuggets of Thought

Some people carry their religion on their backs like a burden, when they should carry it like a song in their hearts—Rev. Ronald E. Terry.

Whatever is hateful unto thee, do it not unto thy fellow. This is the whole law. The rest is but commentary—Talmud.

We cannot get grace from gadgets. In the bakelite house of the future, the dishes may not break, but the heart can—J. B. Priestly.

Home is the place a child must be helped to learn from his mistakes, not to be forced to suffer from them—Sidons Bruenberg.

Diplomacy is to do and say the nastiest thing in the nicest way—Isaac Goldberg.

An exaggeration is a truth that has lost its temper—Kahlil Gibran.

If a person desires to be a humorist it is necessary that the people around him shall be at least as wise as he is, otherwise his humor will not be comprehended—James Stephens.

## Let's Save Human Lives

Every reader of The Herald should be interested in any plan that might tend to reduce the number of persons killed and injured on our highways. The toll of the dead and maimed constitutes a national scandal.

A steady campaign has been waged by traffic officers to educate the users of motor vehicles in the proper manner of their operation. This publicity program has produced good results but, nonetheless, nearly 90 persons die in highway accidents every day of the year. Hundreds are hospitalized for serious injuries and thousands suffer minor injuries each day. The financial loss, including property damage, cost of funerals and treatment and loss of time, not to mention the earning value of those who die, runs into the millions.

It is high time to take drastic action to save lives and money.

In addition, there should be a more rigid enforcement of all traffic regulations. This will do more than anything to make the automobile driver conscious of safety rules and other motorists on the streets and highways. Especially there should be apprehension of those who drive under the influence of intoxicants. Drivers' licenses should be revoked for repeated participation in accidents.

## Editorial of the Week

NIXON TRIP WILL BE USEFUL

Vice President Nixon's mid-summer trip to Moscow is bound to serve useful purposes. As the highest American official to visit Russia since President Roosevelt journeyed to Yalta, Nixon will be given the full red carpet treatment. Thus he will have opportunity to see something of the Russian people and to form first-hand impressions of their leaders, including the many-faceted Khrushchev. This should make the vice president all the wiser in United States relations with Russia.

Moscow's unanimous approval of the idea is not entirely shared by Washington, however. Some of the Democrats there take a rather dim view of the assignment and say it was conceived to boost Nixon's chances for the presidency.

Whether intentionally, the trip should have some political value to Nixon. For instance, it will place him on an even footing with those other American tourists, Adlai Stevenson and Senator Hubert Humphrey, either of whom could wind up as Nixon's opponent in 1960.

Politics aside, the majority of Nixon's fellow citizens warmly approve, convinced that he will give an able performance as an official representative of the country. It is a role in which he has starred before with benefit to all—The Philadelphia Grit.

## RECALLING Other Years

★ Being news items taken from old files of Your Home Town Newspaper, The Herald.

### THIRTY YEARS AGO.

In scanning the files of Your Home Town Paper, we find the following news briefs, taken from the issue of The Hamlin Herald dated July 5, 1929:

W. C. Moore, R. E. Moore, and Mrs. M. A. Fairrey and Mrs. Roy Cameron were called by death of their mother, Mrs. C. C. Moore, last week at the Temple Sanitarium. Burial was conducted at Abilene.

More than an inch of rain that fell in the Hamlin territory first of the week brightened the crop prospects of the area.

The building boom continues in Hamlin, with a number of new homes now under construction.

David Wayne Nowlin arrived Tuesday, July 2, to make his home with Mr. and Mrs. Walter Nowlin. A. C. McCain of Phoenix, Arizona, and his mother and sister of Yuma are spending the week here as guests of Mrs. Martin McCain.

Mr. and Mrs. W. A. Huling of Corpus Christi arrived Monday to spend the summer here with old friends. Huling is living on the coast for his health, but likes the West better.

### TWENTY YEARS AGO.

From the files of The Hamlin Herald dated July 7, 1939, the following news briefs of 20 years ago are reproduced:

Mr. and Mrs. Cecil Elvens of Lubbock spent the past week-end at Hamlin and McCauley visiting relatives while on vacation. Elvens is with a bank in Lubbock.

Milton Gollehon of Post spent Tuesday night with Connie Drake and sisters.

Practically all business houses of Hamlin will observe Tuesday, July 4, as a holiday.

Mr. and Mrs. Frank Waggoner and son, Jerry, returned Saturday from an extended trip to Cleveland, Ohio, and Detroit, Michigan, and over into Canada.

Mr. and Mrs. Ollie Floyd of Junction came up Saturday to spend the week-end and Fourth of July with their parents, Mr. and Mrs. John McClung.

Kurt Schoemann and mother, Mrs. Freida Schoemann, spent the week-end and Fourth of July at Ruidoso, New Mexico, summer resort.

### TEN YEARS AGO.

Events in the Hamlin community 10 years ago included the following, reprinted from the issue of The Hamlin Herald dated July 8, 1949:

The Celotex baseball team is leading in standings of the six-member softball league, according to Truman Nix, manager of the league.

General clean-up of the Hamlin East Cemetery is being sponsored by the Veterans of Foreign Wars post, according to C. W. (Jiggs) Gold, post commander.

Norik Hassen returned home this week after visiting with relatives at Washington, D. C.

Mrs. Alvis Ammons and children of Bridgeport spent Thursday in Hamlin as guests and Mr. and Mrs. Harold Bonner and children.

Mrs. Leslie Sparks of Mathis as a guest of Mrs. S. D. McMahon last week.

Mr. and Mrs. Homer Rainey are on a vacation trip to point on the West Coast.

### FIVE YEARS AGO.

Goings-on in the Hamlin community are reflected in the following news briefs, taken from the issue of The Hamlin Herald dated July 9, 1954:

Some \$3,850 has been spent to extend the water system at Hamlin East Cemetery, according to Lennie Greenway, secretary-treasurer of the cemetery association.

Ordinance regulating the keeping of dogs in the city limits, and providing for the requirement of vaccination for rabies for the animals was passed recently by the City Council.

Total rainfall for the first six months of 1954 have been tabbed at 9.51 inches, which is slightly less than normal.

### ONE YEAR AGO.

News bits from the Hamlin Herald dated July 10, 1958, include the following:

Row crops in the Hamlin area received a big boost from the showers of rain that fell over the area last week-end, but more moisture is needed. Hanna, eight miles southeast of town, got the best rains, measuring to three inches.

Former Mayor of Hamlin, Joe L. Culbertson, died early Thursday morning at his home following a heart attack.

Elmer Fesgan, long time Hamlin resident and golfer, shot a hole-in-one on the Lakewood Golf Club course Monday afternoon.

## Roger Babson Discusses South Africa, Citing Resources and Limiting Factors

Roger W. Babson, internationally known analyst and financial advisor who is a regular contributor to columns of The Herald, in this week's release discusses South Africa. He writes:

So many readers of my column have written to me questions on South Africa so I have selected 16 of the most important queries and am answering them her.

1. Population.—The population of Africa is estimated at 135,000,000. Of this total about 5,000,000 are Mulattos, about 3,000,000 English and other Europeans, and about 2,000,000 Dutch, known as Afrikaansers. This leaves about 125,000,000 Blacks, which speak the Communists from now getting any hold in Africa.

2. Cost of Living.—This is high for all groups. Black labor is very cheap, but it is very inefficient. Most articles, textiles, etc., are imported.

3. Large Retail Stores.—These are very attractive and well stocked, equal to the best in any American city of similar size. There are probably too many small retailers. The merchants are mostly Jewish, Malayan and English.

4. Building.—The Blacks live largely in thatched-roof mud huts, while most of the white collar people live in very attractive four-story apartments built of brick tile covered with cement.

5. Hotels, Churches and Clubs.—These are the same as in any American city of similar size, but much more segregated as to race and inheritance.

6. Farm Land.—This is very high priced, at \$500 an acre and upward, and can be equalled at \$100 an acre in the United States. This high price is due to the fact that agricultural land lies only in the small valleys between the highlands and mountains.

7. Weather.—South Africa has its hottest months in January and February; and it is coldest in July and August, with practically no freezes except in the highlands. South Africa is fast becoming a winter resort for Europeans.

8. Rainfall.—Long periods of drought are followed by terrible floods. Some day the floods will be controlled but not yet. The weather is fine for citrus, with no freezes and much sunshine. The droughts are overcome by irrigation.

9. Banks.—There are several local banks scattered throughout Africa but South Africa has only four. Each of these banks has hundreds of branches. I like Barclays Bank the best, but all are equally good. Banks pay 4 1/2 per cent interest on deposits; bank stocks yield about nine per cent to stockholders. I believe these bank stocks offer the greatest opportunity for growth of any in the world.

10. Large Cities.—There are only a few large cities in Africa, but all are having a marvelous growth. Forty-five years ago Johannesburg had only 1,000 people, all living in tents. Today the population of this city is over 600,000, and there are dozens of skyscrapers. My favorite cities are Cape Town, Durban and Salisbury.

11. Fisheries.—These are very prosperous, and mostly on the Southwest Coast. Frozen fish and so-called "lobster tails" (cray-

**KITCHEN AIDS**—A cheerful cotton sack apron can help make cooking fun. Both the apron and mammy doll, who's hiding a cookie jar under her big skirt, were made from a 100-lb. flour bag. You'll find cotton print bags useful for all types of home sewing.

fish) come into the United States free of duty, but a 45 per cent import duty must be paid on canned fish.

12. Local Investments.—When the South African people sell out their mining stocks, they use the profit to build apartment houses for rent. They believe that acreage, business blocks, and apartment houses are the best hedges against inflation.

13. Highways.—These are wide and well tarred. Most white collar workers have automobiles, which are mainly American made. No oil of commercial grade is now found in Africa. Soft coal exists in great quantities. This is being distilled and the distillate is being used for gasoline for autos and trucks; the residue is used for tarring the highways.

14. Minerals.—My reason for visiting Africa was to investigate

the diamond, gold, chrome and copper mines. I was interested only in the richest and longest lived mines, of which there are not too many. I especially like those whose stocks can be bought by the purchase of American depository receipts and that are listed on the New York Stock Exchange. Too many African mines are short lived and very speculative.

15. Water Power.—Africa leads all continents in undeveloped water power. Three of these possibilities are now being developed. I am especially enthused about the one at the Kariba Gorge on the Zambezi River. This will be three times the size of our Hoover Dam, and has the world's largest man made lake to supply water in the dry seasons. It will supply power to the copper mines.

16. Wild Beasts.—Africa has the greatest number of wild beasts now remaining on this earth. There is a huge collection in the Kruger Reservation, 300 miles by 50 miles in area. I was unable to visit this reservation, where they all run wild and have equal opportunity to follow their natural pattern for survival. Mrs. Babson had the courage to go by herself, with a guide. Wild animals offer a suggestion for world peace—namely, by giving equal opportunities to all creatures. If all men and beasts have sufficient opportunities to eat and to develop there will be no Communists.

## Best Room!

JUST ONE OF 7 Big Bests Chevrolet OFFERS you over any other car in its field!

Take a tip from the experts... in their own words... and from on-the-record facts and figures: More than ever, Chevrolet gives you more than any other of the leading low-priced three! More room to relax in, for instance. A sampling of official dimensions reported to A.M.A.\* makes this clear. Chevy front seat hip room, for one thing, is up to 5.9 inches wider than comparable cars. And Chevy even offers more front seat head room than all but one of the high-priced cars!

**Best Brakes** Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a

NASCAR-conducted test of repeated stops from highway speeds.

**Best Style** It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

**Best Engine** Every motor magazine has given Chevrolet's standard and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "... surely the most wonderfully responsive engine available today at any price."

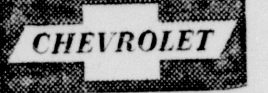

**Best Ride** MOTOR TREND magazine calls Chevy "... the smoothest, most quiet, softest riding car in its price class." You'll be

able to tell this yourself instantly, once you take the wheel.

**Best Economy** No doubt about this: two Chevrolet 6's won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car, 22.38 miles per gallon—with Powerglide.

**Best Trade-In** Check in any N.A.A.I. Guide Book. Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

## Congressman Bureson Says Nation Is Health Conscious and Spurs Research

Perhaps our nation has never been more health conscious than at the present time, declares Congressman Omar Bureson of Anson in his weekly news release to The Herald from Washington. The release continues: Some diseases, such as smallpox and tuberculosis, which at one time took a fearful toll of lives, have now been practically eliminated by medical science.

As some of the older diseases are eliminated, seemingly new ones appear which were unheard of a few years ago. It is entirely possible some may have existed but were not recognized for what they were.

Cancer continues to be one of the top killers. It strikes 450,000 American every year. It is estimated that unless prevention or cure is found, 40,000,000 men, women and children now living will be stricken by cancer, and 26,000,000 of them will die. It is the No. 2 killer in the nation.

Aside from the cost in human lives the 700,000 cancer cases under treatment at any given time are estimated to cost some \$30,000,000 in hospital bills each year. This, added to the cost of lost wages and production, becomes a staggering figure.

At the present time there is being spent nearly 100 times as much on military research as that spent on cancer research.

Money alone will not buy a cure for cancer, but without adequate funds to provide research facilities and new experiments for the discovery and treatment of cancer, the disease will remain a dread to hundreds of thousands of people.

Tremendous gains have been made in discovering the causes of cancer, in detecting early stages and in its treatment. Breakthroughs appear near, according to some of the experts, in treating several types of cancer. About 20 drugs are already in use and proving effective against 30 forms of cancer for periods ranging from weeks to several years.

Included in the president's budget is \$75,000,000 for cancer studies and research. Some in the Congress are insisting this be increased. As a matter of fact, the House of Representatives reduced other items and added another \$8,000,000 to the president's figure. It is understood that the Senate may possibly increase this sum to over \$100,000,000.

There is a question as to whether vast new sums of money pumped into cancer research can be used effectively. If used effectively it would provide greater facilities and equipment for experimental work; train more people through fellowships; obtain more qualified personnel through better salaries; build more laboratories; increase grants to universities and hospitals; and boost contracts to pharmaceutical and other industries.

To be effective and practical, common sense must be applied by those charged with administering any program, but it does take money.

## Crop Prospects in Santa Fe Region Look Promising

Crop prospects are among the brightest in the Hamlin territory as well as most of the other territory served by the Santa Fe Railway, according to the July 1 crop condition report issued by the railway.

The 1959 Texas wheat harvest is almost history except a few late areas in High Plains counties. Yields generally were above average, although a few areas, particularly in the Low Rolling Plains, had almost complete failures because of lack of moisture throughout the growing season.

Sorghums range from full maturity and being harvested in the Lower Valley to being planted on the High Plains with prospects throughout the state for generally good yields if favorable moisture conditions continue throughout the remainder of the growing season.

Except in some of the South Plains counties where stands were destroyed by hail and heavy rain early in June, cotton is in good condition over most of the state with harvest under way in Lower Rio Grande Valley. Thrips and flea hoppers continue to cause considerable damage although control measures are being carried out by farmers as soon as insects are noticed. Other insects causing some damage include leaf worms, weevils, cabbage loopers, spider mites, aphids and grasshoppers.

Harvest of potatoes in the Munday-Haskell area is nearing completion and is underway in Crosby County and is expected to become general in the Hereford-Muleshoe-Plainview area early in July.

**WINE-DRINKING DOG UPSETS NEIGHBORHOOD**—Towser, a shaggy blond dog who likes a nip of wine, poses with his master, Gus Pierce, owner of a transfer and storage company in Dallas, where the dog stands guard. After his usual after-dinner nip, Towser was unleashed and strolled around the neighborhood. A woman resident saw him dart through bushes accompanied by a roar and reported to police that a lion was loose. Officers searched the area but found no lion. One policeman making the rounds saw Towser back at the warehouse and asked questions. Investigation proved Towser to be the animal the woman saw. The roar was just the watchman blowing through an old phonograph horn calling Towser back home.

## Giving Growing Baby Proper Foods Is Vital to Proper, Healthy Development

The way to the heart of any baby 365 days a year, not just during baby week, is through his busy little tummy.

In just one year, a child's birth weight almost triples. This big growing job takes a lot of nourishing food, especially protein rich foods like pre-cooked cereal, meat dinners, strained meats and strained egg yolks.

An active baby also needs plenty of fuel. Strained fruits and vegetables provide this fuel in the form of carbohydrates. Any excess of these which is not burned in kicking, stretching, crawling and climbing is converted into baby fat.

It's wise to give your baby a variety of foods to insure that he gets all the nutrition he needs. The variety continues to be important even after the first year, when baby's growth slows down and there is not the need for as much food.

Don't force your baby to eat, but offer him foods from each of the four basic groups—meats, fish, poultry and eggs; fruits and vegetables; milk and milk products; and cereal and bread.

It never pays to heap a toddler's plate high with food. Small servings are most appetizing to small eyes and palates. And you can always serve seconds. Once a youngster shows a willingness to feed himself, let him try—even though he might end up with more food on the high chair tray or in his hair than he succeeds in putting in his mouth.

**WHAT HE EXPECTED.**

A clerk was handed a pay envelope which, by error, contained a blank check.

The astonished clerk looked at it and moaned: "Just what I thought would happen. My deductions have at last caught up with my salary."

## Donley Williams Reports on Confab Of Lions Groups

New York City is a sultry, fast moving, confusing place for a country boy to attend a big convention, new President Donley L. Williams told members and guests at the Tuesday noon luncheon meeting of Hamlin Lions Club at the oil mill guest house.

Williams was just back from attending the annual convention of Lions International, which convened last week in the metropolis. His wife accompanied him.

Besides relating a number of sidelights of his trip to the convention, Williams said that 61 countries with 14,138 clubs and 594,484 members were represented at the convention that attracted some 25,000 attendees. The Texas delegation won first place in the four-hour parade Tuesday evening down Fifth Avenue. The convention program featured outstanding speakers from all over the world. It elected Clarence Straum of Wisconsin as new president of Lions International.

The president said side trips up the Hudson River, to Radio City and the United Nations Building were highlights of the trip. They left their car and children with relatives in Georgia and went to and from New York City by bus.

Guests at the Tuesday luncheon included Mack Elkins of Waco and Harold Scales of Abilene.

**NAUTICAL MISS TEXAS**—Carelean Douglas of Corpus Christi will represent the Lone Star State at the Miss USA contest to be held at Long Beach, California, July 18 to 24. Carelean, 20, is a sophomore at Southern Methodist University studying commercial art.

**FROM A TO Z.**

Auntie—"Have some more of this alphabet soup."

Nephew—"No, thanks. I just couldn't hold another syllable."

## Jones County Had 32 Students Last Session at NTSC

Jones County was represented by 32 students at North Texas State College at Denton in the school year just ended, the registrar's office has announced.

During the nine-month session a total of 7,897 different students were enrolled. They came from 211 of the state's 254 counties, from 32 other states, and from nine foreign countries.

Dallas County again sent the largest number to NTSC, 2,149 students. Other counties represented by large groups were: Tarrant 889, Denton 881, Collin 103, Grayson 156, Cooke 134, Harris 131, Ellis 122, McLennan 113, Wichita 108, Gregg 101, Montague 90, Wise 84, Galveston 76, Navarro 61, Smith 59, Parker and Taylor 58 each, Kaufman 57, Bowie 51, and Harrison 50.

These record figures reflect the steady increase in enrollment at the college in recent years.

To accommodate the growing student body, there are now just completed, under construction or in the final stages of planning buildings which will add \$6,000,000 to a physical plant already valued at more than \$20,000,000.

Ignorance is responsible for more ills than sin; money invested in the community's education system will therefore return enormous dividends.

**NEW IMPROVEMENT LOANS.**

The first loan in the nation made to enable a local public improvement organization to participate in a small watershed development project has been approved by the Farmers Home Administration for the use of a group in New Jersey. The loan will be used to rebuild a dike and for installing three tide gates. Details on the program, points out Jack Barton, extension soil and water conservation specialist, are available from local FHA representatives.

No matter what you may think, Congress is a great institution.

# The Herald's Page for Women

## Latest Method for Canning Is Short One-Step Process, Says County Agent

Latest method for canning vegetables is a one-step cold pack method, says Mary Y. Newberry, Jones County home demonstration agent. Directions are simple.

As an example, take snap beans: Begin by washing all pint or quart jars in hot, soapy water and rinse well. It is not necessary to sterilize jars, since the pressure canner must be used in canning all non-acid vegetables.

Use only fresh, young, tender beans. The bean should just be beginning to form in the pod. Wash thoroughly, trim ends and cut into one-inch pieces. Thus far there is nothing different from the old method of canning snap beans. Now you will note that the fill is different: Pack raw beans tightly into clean jars to one-half inch of top. Cover with boiling water, again leaving one-half inch space at the top of the jar. Add one-half teaspoon salt to pints and one teaspoon to quarts.

Close jar with two-piece lid and place it in the pressure canner. Exhaust canner for 10 minutes, close pet-cock and process at 10 pounds pressure: Pint jars for 20 minutes, quart jars for 25 minutes. Remove canner from heat, and let pressure return to zero and remove the jars.

This new one-step method can also be used for canning fresh

lima beans, carrots, cream style corn, whole kernel corn, black-eyed peas and summer squash.

To freeze beans, select only fresh, tender, young beans. Wash, cut or snap off the tips, and sort for size. Freeze small beans whole if desired. Cut or break larger beans into one or two-inch pieces. Put beans in blanching basket, lower basket into boiling water, and cover. Keep the heat on high and begin counting heating time immediately. Heat in boiling water: Small beans, two minutes; medium beans, three minutes; large beans, four minutes.

For further information on canning or freezing you may also wish to ask for a copy of Pamphlet B-194, "Home Canning of Fruits and Vegetables," and B-175, "Frozen Foods."

## Laundry Bag Can Be Made from Old Shirt

A closet laundry bag can be made from a man's discarded shirt. Sew up the cuffs and shirt tail. Then use one sleeve for hose, the other for hankies. The middle section will take care of the rest of your laundry.

Place the shirt on a hanger and hang it in a convenient spot. To remove soiled clothing, simply unbutton the shirt front.

## H. A. Wright Family Group Gathers for Get-Together Sunday

All six children of H. A. Wright and the late Mrs. Wright were present for the second annual reunion of kinspeople Sunday when the group met in an all-day get-together at the oil mill guest house. Four grandchildren and a number of other relatives were present. It was the first time all the children had been together in 14 years.

The day was spent visiting, playing and singing, picture making and feasting.

Present were Mr. and Mrs. J. L. Johnson of Dallas; Mr. and Mrs. Steve Lawlis of Fort Worth; H. A. Wright, Mr. and Mrs. J. L. McWright, Harry, Larry and Garry, all of Lubbock; Mr. and Mrs. J. A. Proffitt, Mr. and Mrs. Gilbert Stenherthur and Harvey, all of Guyton, Oklahoma; Mr. and Mrs. R. E. Blackwell, Mr. and Mrs. H. P. Sims, Jimmy, Donnie and Sandra Kay, all of Borger; Mr. and Mrs. C. B. Stone and Nellida, Mr. and Mrs. Leaford Stone, Sperland, Royce and Sheila, Mr. and Mrs. Bill Sauls and Pat, Mr. and Mrs. P. W. Goodgame, all of Hamlin.

## THESE WOMEN!

By d'Alessio

"Isn't it a beauty? I can just feel it calling out for me to try it on for size!"

## Ingenious Methods Used to Aid Person In Remembering Special Event Days

If you want to be known as the faithful, thoughtful friend or relative who doesn't forget birthdays or anniversaries it's worthwhile to set up some system to help you remember those all-important personal dates.

At a set time each month, the first day for example, you could mark a large kitchen calendar, enclosing with a card dates you want to remember with a greeting card. You person's name. Then just check your calendar every few days.

If you use the calendar system, it is a good idea to make a note of special anniversaries three or four days earlier than the actual date, besides marking the day itself. If you mail a greeting card, you want to do this before the date so that, if possible, its arrival will be on the special day.

Some people find it convenient to sign, address and stamp all the greeting cards they intend to send in one particular month on the first day of that month.

By penciling a mailing date lightly on the envelope, they know exactly when to mail the card. This eliminates repeated checking of date books and address books throughout the month.

For indefinite occasions, such as a death or birth, many persons find it handy to keep a box of assorted greeting cards in the home to use at a moment's notice.

## Bridal Show Honors Mrs. Lenoir Dickerson

A bridal shower honoring Mrs. Lenoir Dickerson, formerly Eulene Early, was given in the Sylvester Baptist Church basement Saturday, June 27.

A crystal punch service was used on a lace cover over aqua cloth. Lime sherbert punch and angel food cake was served to some 30 guests.

Hostesses for the shower were Misses Ella Whitehead, W. B. Brown, Charles Scott, Ernest Kiser, Royce Ferrell, W. M. Lawlis, Bill Watson, Melvin Thompson, David Hartman, Opal Josey, Herbert McHaney and R. M. Babb.

## New Toothbrush Is Kind to Tender Gums

Here's good news for mothers worried about their children's dental care. A scientific research team has designed a pediatric toothbrush that will end many worries.

Some children won't form the habit of brushing their teeth and others, with juvenile enthusiasm, brush so hard that they damage their tender gums.

This new brush has two types of action. A central section of stiff blue bristles scrubs tooth surfaces. Surrounding rows of softer, white bristles massage, but cannot damage, the gums.

## Furnishing Materials For Artist Child May Encourage Practice

Children love to draw and color. Art teachers suggest that parents provide their children a good set of color crayons, paper, paste, a ruler and scissors.

White paper is a youngster's favorite, but a pack of colored construction paper will inspire some children to try one color of crayon on a different color of paper. A bulletin board of soft wall board will make a perfect display place for the finished art.

Parents and big brothers and sisters shouldn't discourage the little artists. They should refrain from asking the youngster what he is drawing. (He may not know but he's having a good time). Nor should a child's drawing ever be laughed at. Such action might hurt the child so that he'll never again use crayons.

**THE PROPER SPIRIT.**

## Good Neighbor Club Studies Sandwiches As Program Topic

The program was on "sandwiches" when members of the Good Neighbor Home Demonstration Club met June 23 with seven members present.

Roll call was answered with members giving a good house-cleaning short-cut, and a game was directed by Mrs. Noel Weaver.

The Good Neighbor Club has sponsored a man and woman patient at the State School in Abilene ever since the club was organized, to whom they send cards, gifts on birthdays, Christmas, etc. The man, whose birthday comes in June, had been sent a gift, it was announced.

In the council report it was brought out that the president, Mrs. J. E. McCoy, had been elected as one of the delegates from Jones County to the State Texas Home Demonstration Association convention, to be held September 16 to 18 in Galveston.

Next program of the group will be on "Sewing Techniques" so the club will meet in the home of Mrs. Jack Kelly so as to have the use of a sewing machine and pressing equipment.

Refreshments of sandwiches and punch were served by Mrs. Elmer Joiner.

## Methodist Women In Tuesday Meeting

Members of the Woman's Society of Christian Service of the First Methodist Church met Tuesday morning in their general business session.

Theme of the program was "Christian Character in Youth." Mrs. L. C. Bonds was in charge of the program. She was assisted by Misses J. E. Harrison, J. O. Ballard, W. L. Hunter Jr. and Phil Smith. Each one told of various work in youth centers with youths throughout the United States.

A general business session was conducted by the president, Mrs. Richard Young Jr.

The meeting was concluded by a prayer by Mrs. W. H. Parker.

## DOG LANGUAGE.

Jim—"Why do you call your dog Baseball?"

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Austin.—About the only cheerful remark heard around Texas legislative halls of late is, "Think how bad it would be if it weren't air conditioned!"

House and Senate chambers are cooled this year for the first time, though most of the rest of the capitol is not as yet.

Many remember summer sessions in pre-air conditioned days. Scorchers extraordinary was the one in 1949 which ran to July 6, longest regular session in Texas history.

Lawmakers and reporters complained that the huge granite blocks in the capitol walls collected heat like a dutch oven. Coat and tie rules in the legislative chambers added to the misery.

Some observers said that the 1949 Legislature (which also had a tax problem) didn't really quit. It just sort of melted down. A special session was called the next winter to clear up money problems.

For all its comfort, air conditioning hasn't taken the sweat out of passing a tax bill.

## Accidental Deaths In Farming Industry Higher Than Others

Although the accidental death rate among farm people has been reduced, it is still higher than in any other major industry, according to the president of the Texas Farm and Ranch Safety Council.

Paul H. Walker of Temple said that, in addition to the people who meet death as a result of farm accidents, 1,000,000 more farm people suffer accidental injuries and the accompanying worry, misery and financial trouble.

"The question of farm safety thus becomes one of major importance to us all," Walker said. "The theme of the 1959 National Farm Safety Week, 'Safety Makes Sense,' is a most appropriate slogan because it is a matter of good sense to protect not only our own individual welfare but the safety and welfare of those around us."

National Farm Safety Week is July 19 through 25.

## TRUE CONFESSION.

When Dr. Johnson courted Mrs. Porter, whom he afterwards married, he told her that he was of mean extraction; that he had no money; and that he had had an uncle hanged!

## SHREWD DEAL.

An ancient auto puffed and wheezed up to the toll gate. "Fifty cents," the attendant said. "Sold!" replied the driver.

### Imagine Being Happy During CHANGE-OF-LIFE!

Thousands of women now go "smiling through" those trying years—without painful suffering from "hot flashes"—without women have found you no longer have to feel sickly, "old" before your time. Today, many can enjoy change-of-life—without terrible suffering!

Pinkham's Tablets have been developed especially to relieve those functionally-caused "female miseries." Their unique formula includes blood building iron! With Pinkham's Tablets, you can escape much of the "hot flashes," irritability. You're ready to start living again!

**NO PAINFUL SHOTS!**

8 out of 10 tested by doctors got thrilling relief—without costly shots! Why not you? Get Lydia E. Pinkham's Tablets at drug stores. See if you don't find new happiness during change-of-life!

**IF YOU PREFER A LIQUID,** druggists also have Lydia E. Pinkham's Vegetable Compound.

### KERRY DRAKE

ALONG A SOUTHERN BEACH. I WIRED YOU TWO GUINIES FOR BODYGUARDS! OKAY! SO GUARD THE BODY!

LOOK BOSS! COULDN'T I AN MINKY. SORTA STAY OUTA SIGHT?

SET UP THE EQUIPMENT HERE—WHERE I'VE GOT A CLEAR SHOT AT THEM BOATS!

GOOD DEAL! NOW KEEP THE VOKELS AWAY WHILE I PAINT!

the bill. Senator Bruce Reagan of Corpus Christi, who sponsored the amendment, said that the islands were being developed with a systematic plan for public parks, beaches and recreation areas.

Opponents to the exemption said it would allow at least one-third of the beaches on the islands to be under private control.

As passed by the Senate, the bill does not try to define boundary between state and private land, but simply affirms the public's right to come and go from state beaches by way of roads.

**Fee Bill Added to Call.**—A bill to let state colleges charge a \$30 fee for a new car was added to the call for a new lease on life when Governor Price

Daniel submitted it to the Legislature.

The bill had been introduced twice, but fizzled out in the Senate when Senator Henry Gonzalez challenged it on two points: (1) It was not "within the governor's call" for the session; and (2) in order to be considered "within the call" it would have to be regarded as a revenue raising measure which must originate in the House.

Governor Daniel's action altered this, and the Senate went back to work on the bill. A similar bill was passed by the House last session.

**No Deadlock Here.**—Easiest agreement of the session was on

a bill appropriating money to pay legislative expenses.

Both House and Senate gave final passage to a bill transferring \$400,000 from the cigarette tax fund to pay costs of the second special session.

This brings legislative expenses thus far to about \$2,700,000.

**Land Sale Approved.**—House passed a bill that would allow the state to sell a tract of about 40 acres just north of the State Hospital in Austin.

State Hospital Board has declared the system does not need the land. Austin city officials would like to see it privately owned so property taxes could be collected on it. Location is such that it could be used for a shopping center.

Bill sets the minimum price at \$1,500,000.

**TEC to Move.**—Texas Employment Commission will be the first state agency to move into one of the new buildings being built north of the capitol.

Beginning July 16, TEC will carry some 686 employees and 11,000 items of furniture and equipment from 11 rented buildings to its new headquarters.

Operation is to continue around the clock and be complete on July 20. Unemployment checks will not be issued July 17, but delay is expected to be made up by end of the next week.

## U. S. Senator Johnson Says Cabinet's Report on Inflation Falls Short of Need

Justification of recommendations already made in the picture I get out of the president's cabinet committee report on inflation, declares U. S. Senator Lyndon B. Johnson in his weekly news release to The Herald from Washington. The release continues:

The report falls short of what is needed.

All of us want to fight inflation, and I don't know of anybody who wants more of it.

The report virtually ignores one of the most serious aspects of government. That is the mounting cost of money.

The administration wants to increase the interest rates on long term government securities. But it is obvious this would affect interest rates up and down the line.

Sooner or later, the result would be felt where such inflationary action is always felt—by the consumer.

I'm convinced that few things have contributed as much to inflation as rising interest rates.

But the only thing the president's committee had to suggest on this question was that the sky should be the limit.

Congressional skepticism over this white house proposal to boost interest rates is increasingly apparent, and the Senate, I am confident, will take a long, hard look before taking any action.

To many people, this looks like another way of boosting interest charges all down the line. If this move is necessary, and if it will be for the best interest of all the people, Congress must be convinced of that fact first.

I refuse to believe we are as powerless to control our finances as some think.

I believe the cost of money can—and must—be kept within the reach of the average American. And this is a move to fight inflation, not to foster it.

**TUNE OF THE TIMES.**

It was the little fellow's first time at Sunday School, and at home his mother waited anxiously for a report and for his impressions.

"Well, it was kinda nice," the youngster admitted. "At the end everybody sang."

"What did they sing?" asked mother.

"I don't know," he replied, "but I sang Davy Crockett."

## Hamlin Officials Go To Area TB Meeting

Mrs. W. L. Hunter Jr., executive secretary of the Jones County Tuberculosis Association, attended a seal sale meeting of this district at Colorado City last Wednesday. She was accompanied by Mrs. E. M. Wilson, Jones County seal sale chairman.

The area meeting was conducted by Frances Rains, state chairman of the Christmas seal sale campaign. Mailing date for the Christmas seals this year will be November 16.

Mrs. Rains stressed the fact that the sale of Christmas seals is the only means of carrying on the work of research and education in the national and state tuberculosis associations.

### VISITS FROM LUBBOCK.

Andrea Irwin of Lubbock is a guest for several days of Mary Alice Patterson.

### VISIT FROM FORT WORTH.

Mickey Hogan of Fort Worth is visiting his uncle and family, the Woodrow Goodwins.

J. W. SIMMONS, Anson and Hamlin businessman, is president of the Jones County Fair.

### HARD TO CONCEAL.

Stern Father to son departing for boarding school—"Now, don't let me hear any bad reports about you."

Son—"I'll try hard, dad. But you know how those things leak out."

## Fair President Has Varied Interests Over Long Period

Jones County's newly organized fair association is headed by a life-long resident who has also been associated with the farming and ranching interests of the county all of his life.

He is J. W. Simmons, Anson and Hamlin businessman. Simmons was only one year of age when his parents moved here from Madison County in 1920. He was reared on a farm and attended high school in Anson. Although he has been active in business in Anson and Hamlin for the past 21 years, he has kept up an interest in stock farming, horses and rodeos.

He and Mrs. Simmons, the former Annetta Talley, and their only child, Judy, are members of the Anson Rodeo, Riding and Roping Club and of the Hamlin Riding Club and attend the rodeos throughout this area.

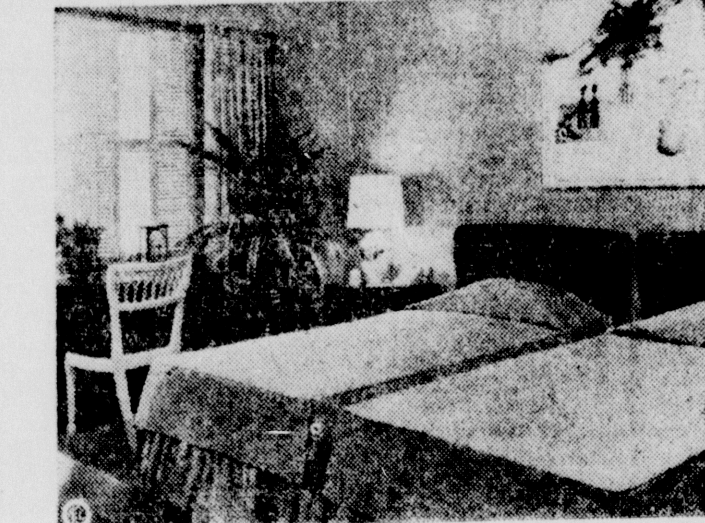

His personal rodeo participation is in cutting horse contests, while Judy participates in the barrel races, and has been official Anson sponsor at the Texas Cowboy Reunion at Stamford the past two years.

The Simmons have stock farming interests east of Anson, where they maintain a commercial herd of cattle. He has had the Magnolia wholesale agency in Anson 21 years and the Hamlin agency for one year. Until last year he operated a butane business at Anson.

## Buck Richey Preaches Sunday at Fairview

Buck Richey, who recently surrendered to preach, preached his first sermon Sunday evening at Fairview Baptist Church, seven miles southeast of Hamlin, in the absence of the pastor.

The pastor and wife, Rev. and Mrs. Doyle Combs, went to Dallas Sunday afternoon to be with the Holmes family Monday when their daughter, Mrs. Jack Wright, had lung surgery.

CHINTZ CHARMER—Decorator William Pahlmann, AID, creates a charming and smart urban apartment bedroom using a turquoise and gold pin stripe Everglaze chintz imaginatively throughout. The fabric is used as wall covering and repeated in the draperies and dust ruffles in this room designed for one of the model apartments in New York's Washington Square Village.

## Insect Situation Reaches Critical Stage Over Texas

The cotton insect situation has reached a critical point in many sections of the state, declares the seventh weekly report of cotton insect conditions by the Texas Agricultural Extension Service in cooperation with the plant pest control division of the U. S. Department of Agriculture. Excerpts from the report follow:

Late maturing weed hosts continued to support much of the fleahopper population in several areas of the state. First generation boll weevils have appeared in many sections of the state and were emerging as far north as Dallas. Bollworm and young larvae were present from the gulf northward to early planted fields in the north central section.

Cotton should be watched closely for fleahopper, boll weevil and bollworm infestations. There is still danger of damaging fleahopper migrations in many areas. As the first generation of weevils merge in different localities a very rapid increase in punctured cotton squares is likely to occur.

Generally heavy rains fell over most of the state during the past week. Thrips infestations continued to be medium to heavy in the North and South Plains areas. Migrations of fleahoppers have decreased considerably and only isolated areas reported any extensive activity. Cotton bollworm populations have increased and in some areas the infestations have been reported heavy.

In the report on the Northwest Texas area, of which the Hamlin region is a part, the following was tabulated: Thrips infestations were found to be light in Wichita, Motley, Cottle and King Counties; light to medium in Fisher County; and heavy in Runnels and Nolan Counties. Infestations of fleahoppers were said to be light in Wichita, Cottle, King and Motley Counties; heavy in Run-

## City Youth Golf Tournament to Be Event Each Year

Sixteen entries were tabbed in the first city-wide youth golf tournament sponsored Sunday, June 28, by the Hamlin Woman's Golf Association at the Lakeview Golf Club.

There were three divisions playing in the competition. Six to nine-year-olds were Steve Feagan, Joe Poe and Gary Smith. Nine to 12-year-olds were Rodger Bell, Doyle Bell, Donna Compton, Rupert Compton, Jimmy Inzer, John Poe and George Smith. The 13 to 16-year-olds were Randy Brown, Nicky Moore, Dan Newberry, Van Newberry, Jimmy Shivers and Mark Smith.

A golf trophy was presented to the winner in each group. Gary Smith, with a score of 49 on six holes, won the six-to-nine group trophy; Rupert Compton, with a score of 107 for 18 holes, took the nine-to-12 age group cup; and Mark Smith, with an 82 for 18 holes, won the 13-to-16 group trophy.

After play, refreshments were served to the players and their guests.

Leaders of the Woman's Golf Association declare the tournament was considered a big success, and the group plans to make the junior tournament an annual event.

### VISITS GRANDFATHER.

Judy Wheeler, daughter of Dr. and Mrs. H. C. Wheeler of McAlester, Oklahoma, is visiting with her granddad, Bob Barrow, for several weeks.

The Herald has carbon paper.

neils County. Light infestations of bollworms were noted in Cottle, King and Runnels Counties. Grasshopper populations were observed to be medium to heavy in Fisher County and heavy in Runnels County.

## Who will eat my bread?

Remember the Little Red Hen who asked for help in planting, harvesting, and grinding her wheat? No one would help so she did the work herself. But when she asked "Who will eat my bread?" ... they were all willing to assist.

Texas find food for thought in this familiar nursery tale. Back when our rural community had no electricity, poles had to be set and the lines strung to pierce the darkness. No one was willing to do the work so rural people formed electric cooperatives and built their own electric systems. But now that the hard work has been done would you deny these democratic institutions the fruits of their labors?

We feel that the locally owned, business managed, tax paying Texas Electric Cooperatives should harvest the field; they have been cultivating for two decades. The Electric Cooperatives of Texas brought a new way of life to our rural community. ... They should continue to serve the areas they helped to develop.

Mid-West Electric Cooperative

Headquarters: Roby, Texas

## Freight Carloadings For Santa Fe Still Up

Freight carloadings for the Santa Fe Railway System for the week ending June 27, 1939, were 30,516 compared with 28,561 for the same week a year ago, reflecting a continuing increase. Cars received from connections totaled 12,386 compared with 10,998 for the same week a year ago.

Total cars moved were 42,902 compared with 39,562 for the same week a year ago. Santa Fe handled a total of 45,295 cars in the preceding week this year.

### LASSETERS HAVE GUESTS.

Mr. and Mrs. W. F. Lasseter had as their guests during the Fourth of July holidays several children and grandchildren. They included Mr. and Mrs. George La Baume, Jerry, Billy and Jackie of Fort Dodge, Iowa; Sergeant Norman Lasseter and wife and son, Dess, of Hampton, Virginia; Clarence and Bill Lasseter from Denver City; Mr. and Mrs. J. H. Van Duren and children, Jim and Mary Ann, of Hereford.

There may be more than one way to skin a cat, but we know of only one.

### BAKERS HAVE GUESTS.

Relatives visiting in the home of Mr. and Mrs. L. B. Baker over the Fourth of July week-end were Mr. and Mrs. C. S. Jones, Travis, Linda and Marilyn; Mr. and Mrs. Ray Jones, Jerry and Gregg of Tokio; Mr. and Mrs. George Mae Cooper and Ronnie of Kaufman; Mr. and Mrs. T. W. Jones, Bill and Bob; Mrs. Ted Bowman and Donald of Abilene; Mr. and Mrs. D. E. Livengood, Carolyn, Melanie, Elouise and Donald and Haskell; Mrs. Katie Parker of Stamford; Mr. and Mrs. Clyde Lewis and Cheryl and J. T. Jones.

## Parents Urged to Get Started Early on Getting Youngsters Ready for School

Six years ago more than 230,000 new Texans were born, and they will be entering school for the first time in both public and private schools in September. The right preparation for those first school days is vital to the future satisfaction and adjustment of your child in his new environment, points out a release from the Texas State Department of Health to The Herald. The release continues:

### Largest Decline in Months Registered by City Sunday Schools

Largest slump in several months was recorded in attendance at the Sunday Schools of the 12 reporting Hamlin churches Sunday, no doubt due to out-of-town visits of people during the Fourth of July week-end. The 1,069 total was 192 less than the 1,261 figure for June 28. However, the 1,069 total was 261 more than the 808 attendance a year ago.

Attendance, by churches, for July 5, June 28 and a year ago follows:

Churches—	July 5	June 28	Year Ago
Ch. of Nazarene	62	73	63
Oak Gr. Col. Baptist	62	62	14
No. Cen. Baptist	70	84	52
First Baptist	312	378	228
Four-square Gospel	42	57	37
Church of Christ	150	155	140
First Methodist	169	211	126
Assembly of God	51	51	27
Sunset Baptist	43	56	39
Mexican Baptist	42	42	20
Calvary Baptist	41	36	33
Faith Methodist	45	56	29
<b>Totals</b>	<b>1069</b>	<b>1261</b>	<b>808</b>

### BAILEYS HAVE GUESTS.

Mr. and Mrs. Clarence Bailey had as guests for the Fourth of July holidays Mr. and Mrs. Ray Bailey and children and Mr. and Mrs. Bill Fomby of Odessa.

### FORT WORTHER VISITS.

Mrs. J. C. Morris of Fort Worth is visiting her sister, Mrs. Clifford Stuart, this week.

## Mrs. W. F. Johnson, Widow of Early Merchant, Passes

Mrs. W. F. (Jonnie) Johnson, 84-year-old widow of a former Hamlin druggist and jewelry store owner, passed away Monday morning at 10:15 o'clock in a Roton hospital, where she had been taken three days previously after about a week's illness. She had been a resident of the Hamlin community for 33 years.

Mrs. Johnson was born June 26, 1865, at Midway, Alabama, the daughter of Mr. and Mrs. Jonathan Pruden. She married W. F. Johnson on November 21, 1895. The couple lived in Alabama for a few years, then in Oklahoma and Texas, and located in Hamlin in September, 1926, where they had a drug and jewelry business. To this union six children were born. They are W. Theo Johnson of Hamlin, Janie Mae Johnson of Sioux Falls, South Dakota, Dr. J. Frank Johnson of Rotan, Annie Laurie and Carrie Johnson of San Antonio, and Dr. Robert H. Johnson of Fairhope, Alabama.

Mrs. Johnson had been a member of the Baptist Church for many years, and was active in the services until her health failed.

Memorial services were held at 3:00 p. m. Tuesday in the First Baptist Church. Rev. J. Henry Littleton of Eastland, former pastor, and Rev. Huron Poline, pastor of the First Baptist Church in Rotan, officiated.

Burial was in the Hamlin East Cemetery by the side of Mr. Johnson, who passed away September 9, 1933.

Besides her six children, Mrs. Johnson is survived by two grandsons, Bill and John Johnson of Fairhope, Alabama.

Pallbearers were J. D. Burke and George McDonald of Rotan, C. C. Bonds, C. C. Bailey, Arlie Castle, John D. Ferguson, J. C. Turner, Lewis Yates, Carl Meyer and S. C. Ballew of Hamlin.

Let The Herald make your rubber stamps to order.

## STRICTLY BUSINESS

by McFeathers

"... Now then, should your son REACH the age twenty-one, this policy ..."

## Another Hamlin Girl Enrolls at McMurry Twirling-Band School

Registration for the annual McMurry College summer band and twirling school continued to climb this week as advance enrollment crowded the 300 mark, according to a release from the Abilene college to The Herald.

The annual two-week twirling and band school will be held on the campus beginning July 12.

One additional student from Hamlin High School Band has enrolled. She is Ann Hymmer.

Raymond T. (Prof.) Bynum, director of the McMurry Band, is director of the summer band and twirling school. He will be assisted by an experienced staff, including 16 top West Texas high school musical directors.

The two-week school will be held in the new McMurry band hall, which recently was erected at a cost of more than \$100,000. It is one of the few permanent type band buildings in the land.

## Officers for New Year Installed by Rotary Group Wednesday

New officers for the new club year beginning July 1 were installed at last Wednesday's noon luncheon meeting of the Hamlin Rotary Club at the oil mill guest house.

Taking office were Foster C. Cook, president; John Howard Jr., vice president; and Weldon Johnson, secretary-treasurer. New directors are A. A. Wade and Joe Hudspeth.

Carl Murrell officiated at the installation rites. He outlined the duties and responsibilities of each officer as he presented them.

Retiring officers are Howard, president; Gene Prewitt, vice president; and Tommy Davis, secretary-treasurer.

Holdover directors are Earl Smith and Rev. Edmund W. Robb.

Few of us know our real friends until we meet with misfortune or difficulty.

## Working Man of Today Wears More Colorful Clothes

Today's working man is going about his job in dressier, more colorful clothing.

This was reflected in a report issued recently on the work clothing industry by the National Cotton Council. The report indicates the industry, as well as the clothing tastes of the working man, are undergoing considerable change.

Many changes may be traced to a general improvement in working conditions, up-grading of jobs, mechanization and a shorter work week. Even the trend to suburban living enters the picture.

Workers living a long distance from their jobs have a tendency to wear dressier clothing when commuting to work, manufacturers report. Since jobs have been "cleaned up," most of these people wear the same clothing while working.

Informal living and the increase in leisure time have developed a strong demand for "utility" clothing, a cross between staple work garments and sportswear. Particularly popular with do-it-yourself fans, the more colorful, better styled utility garments are becoming increasingly popular for factory workers.

Heavy work clothing is not required in modern, heated plants, so there is a trend to lighter weight fabrics. Sport shirts are being worn on the job in increasing numbers.

Colors, types of fabrics and patterns are changing. The once popular standard khaki twill, for example, has given way to such colors as dark grey, silver grey, green, Air Force blue and copper in the past two or three years.

THE TWO OPPOSITES.  
"What is a debtor, pa?"  
"A man who owes money."  
"And what is a creditor?"  
"The man who thinks he's going to get it."

## Mrs. J.W. Chandler Dies at Age 84 at Family Residence

Mrs. J. W. Chandler, 84-year-old Hamlin resident who had been living in the community since 1919, died last Friday at the family home, 229 Northwest Avenue J., following an illness of several months.

Born May 28, 1875, in Arkansas, she was the daughter of Mr. and Mrs. James Hallmark. She married J. W. Chandler on October 16, 1892, in Alabama. Mr. Chandler died February 24, 1958. She was a member of the Hamlin Church of Christ.

Funeral services for the pioneer woman were conducted at the Hamlin Church of Christ Saturday afternoon at 3:00 o'clock. Officiating were Austin Siburt, minister, assisted by O. B. Proctor, minister of the North Park Church of Christ in Abilene.

Burial was in the Hamlin East Cemetery under the direction of Hamlin Funeral Home.

Surviving the pioneer are three daughters, Mrs. J. C. Jordan of Beaumont, California, Mrs. E. A. Preston of Hamlin and Mrs. R. P. Hillin of Amarillo; one sister, Mrs. O. E. Wallace of Odessa; eight grandchildren and eight great-grandchildren.

### CATTLE NUMBERS UP.

Cattle numbers in the United States increased by 3,500,000 head from January, 1958, to January, 1959, and total for the nation on last January 1 stood at 96,851 head, said John G. McHaney, extension economist. Most of the inventory increase, he added, was in young beef stock.

### OLD FASHIONED.

This sign was posted in a Grand Rapids furniture store: "Try Our Easy Payment Plan—100% Down—Nothing Else to Pay!"

**ESTABLISH PRINTING SCHOOL FOUNDATION**—Papers setting up the Southwest School of Printing Foundation are signed in Dallas in offices of the First National Bank of Dallas. Shown signing at right is Lambuth Tomlinson, vice president of All-Church Press of Fort Worth and president of the printing school. Looking on are: Dr. Harmon Ludwig (left), president of Sam Houston State Teachers College at Huntsville, of which the school is a part, and Raymond Goode (center), vice president and trust officer of the bank.

## Celebration of New Water Well Staged By Fairview Baptists

Members of the Fairview Baptist Church, seven miles southeast of Hamlin, celebrated the completion of a water well on the church grounds Wednesday evening, June 24, with a family night and ice cream supper.

Moved to its present location early in the century, the church has been without water for at least 50 years. Recently a water well was drilled on the premises and an electric pump installed, the work being done by members of the church. An abundant supply of good water was obtained which proved all old-timers wrong who said if they found water it would be too hard for use.

Of course, Rev. Doyle Combs is sure he found the water stream with his water-witching, aided by some of the other men. However, it was discovered it fur-

### NEW STAMP SALUTES SOIL.

The U. S. Post Office Department on August 6 will issue a special four-cent postage stamp saluting progress made in soil conservation work in the nation. The stamp was developed as a cooperative effort between the U. S. Department of Agriculture and the post office department.

### NO CONVERSATION.

The telephone operator answered an agitated summons from a call box.

"Oh, miss," came a tearful feminine voice, "can I have my 10 cents back? Albert won't speak to me."

ishes water for coolers and the church plans to landscape the grounds and have a yard that will be an example of what a small rural church can do if all are interested in bettering their church as a monument to the Lord, point out leaders of the congregation.

## Pedestrians Must Share Part Traffic Responsibilities

"Pedestrians must accept their share of the responsibility, along with motorists, if we are to reduce the overall toll of traffic fatalities in 1959," J. O. Musick, general manager of the Texas Safety Association, said this week. "This is especially true during winter months," Musick said, "when a driver's visibility is frequently reduced to only the traffic directly ahead."

The safety expert pointed out that more pedestrian fatalities occur in urban areas during the winter months than in any other season. This is because winter months mean, slippery streets, longer hours of darkness and poorer visibility.

"Pedestrians should observe extra caution in crossing streets, obey all traffic signs and signals and make sure they are seen by motorists as they step into the street," Musick warned. "And there should be no jaywalking or sudden exits from between parked cars."

Musick outlined five cardinal rules for safer winter-time walking:

1. Cross at intersections and obey all traffic signs.
2. Be wary of slippery streets and take your time in crossing.
3. At night wear or carry something light in color as a warning to approaching cars.
4. Be courteous and give the driver a break in winter weather.
5. Accept your responsibilities for keeping yourself alive.

### VACATION ON COAST.

Mr. and Mrs. W. L. Hunter Jr. and daughter, Mitzi Jane, accompanied Mr. and Mrs. T. L. Thomas and daughter, Ginge Lou, of Amarillo to Corpus Christi, where they are spending the week.

**TWO TOP STARS**, Susan Hayward and Jeff Chandler, bring a fiery romance to life in Paramount's technicolor outdoor spectacle, "Thunder in the Sun," showing Sunday, Monday and Tuesday at both the Ferguson and Hamlin Drive-In Theaters. Drama co-stars Jacques Bergerac and features Blanche Yurka, Carl Esmond, Fortunio Bonanova and Bert Rand Castelli.

## New Picture at Hamlin Theaters Features Triangle

With the showing Sunday, Monday and Tuesday at the Ferguson and Hamlin Drive-In Theaters of Warner Brothers' "The Young Philadelphians," motion picture audiences will have the opportunity to see the screen's newest romantic triangle in the persons of Paul Newman, Barbara Rush and Alexis Smith. The trio start with Brian Keith, Diane Brewster, Billie Burke and John Williams in the film version of Richard Powell's powerful best selling novel, "The Philadelphians."

Paul Newman, in the role of a rising young Philadelphia lawyer, proves once again his versatility as an actor and his popular appeal as a romantic star. The recipient of his amorous advances are Barbara Rush and Alexis Smith, two beautiful members of Philadelphia's upper-crust society known as the Main Line.

The screen has seldom shown such sizzling romances as these three experience—so intimate, in fact, that during the filming of several sequences director Vincent Sherman allowed no one on the set except those members of the cast and crew directly involved in the scene.

In addition to the many romantic situations, the picture reaches a dramatic climax with a court trial in which lawyer Newman fights for the life of his best friend accused of murder.

A fine supporting cast completes the list of notables in "The Young Philadelphians," namely Robert Vaughn, a young man relatively new to films, who portrays a Philadelphia socialite; Otto Kruger, whose enormous talents have been witnessed for many years in motion pictures; Paul Picerni, a young veteran of many motion pictures, who plays Newman's law school friend; Robert Douglas and Frank Conroy round out the picture's cast.

### YES, JUST LIKE HIM.

"Your son ordered these photographs from me."  
"Ah, yes. Well, well, they certainly look very much like him. Has he paid for them?"  
"No, sir, he hasn't."  
"Ah, yes. Very much like him, very like him."

## Jimmy Kidd, Former Hamlin Man, Named Principal at Amarillo

Jimmy Kidd, former Hamlin young man, has been named principal of James Bowie Junior High School in Amarillo. He has been serving as assistant principal of Bowie for the past year. James Bowie has an enrollment of about 900 students and has 38 teachers.

Also, he is serving as principal for the junior-senior summer schools of Amarillo.

A graduate of Hamlin High School in 1949, Jimmy received his bachelor of fine arts degree and master of education degree from the University of Texas.

He has been in the teaching profession for seven years. He has served as high school principal at Morton for two years, where he was president of the Cochran County Teachers' Association. He is a member of the Texas Association of Secondary School Principals and National Education Association.

Jimmy is married and has three children, Michael, Melissa and Christopher. He is the brother of Lonnie Kidd of Hamlin and of Mrs. Louis Criswell. He formerly worked for the Santa Fe Railway, and owns property in Hamlin.

See The Herald for more.

## H-SU President Fills First Baptist Pulpit

Dr. Evan Allard Reiff, president of Hardin-Simmons University at Abilene, was speaker for both services at the First Baptist Church Sunday in the absence of the pastor, Rev. Calvin Bailey, who was on vacation with his family in Virginia.

Ordained a Baptist minister in 1929, Dr. Reiff has held pastorates in Oklahoma, Kansas and Iowa, and has filled numerous denominational posts throughout the Midwest. He was president of Sioux Falls College at Sioux Falls, South Dakota, before accepting the presidency of Hardin-Simmons in the summer of 1953.

The United States is going to lose a war some day; it can happen.

## Special Notice!

Some folks talk against motion pictures and theaters... but without them Hamlin would look like a ghost town any night of the week. A lot of kids and adults would have to travel busy highways out of town for their entertainment—and that could mean heart-aches and maybe even death. So help to keep Hamlin alive... go to a movie at least once a week!

WEDNESDAY, THURSDAY AND FRIDAY, JULY 8, 9 AND 10—

**PLAY BINGO FRIDAY NIGHT**  
\$110.00 CASH and Lotsa Prizes!

SATURDAY ONLY, JULY 11—

So big we are showing this program at both Theaters! A never-to-be-forgotten motion picture that you will want to see again on the big screen...

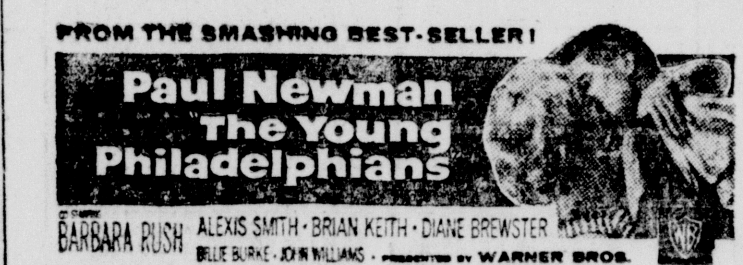

Plus  
Four color Cartoons on Our Kid Matinee

SUNDAY, MONDAY AND TUESDAY, JULY 12, 13 AND 14—AT BOTH THEATERS—

Two Great Motion Pictures on the same program! You'll be sorry if you miss them. Call for starting time of the feature of your choice at either theater...

**DID YOU EVER SEE CHRISTMAS IN JULY? ... WATCH FOR IT SOON!**

See "SLEEPING BEAUTY". Soon!

# Vacationing?

plan to "go buy" Cosden

For vacationing or 'round-town driving, Cosden Gasoline delivers all the built-in power of your engine. It's a better brand to "go buy" for smoother, livelier engine performance... quicker, safer passing... and honest mileage economy.

Advanced refining techniques make Cosden a little better... and you can prove it. Take a "trip-check" with Cosden Premium Ethyl or Higher Octane-Regular. You'll agree, for power, economy, and neighborly service... Cosden is a better brand to "go buy".

**COSDEN PETROLEUM CORPORATION**  
Big Spring, Texas

## Want to Run Your Own Business?

As Operator of the Newly Rebuilt Magnolia Service Station on South Central Avenue in Hamlin

### • Enjoy a Higher Income

You will start with a ready-made public acceptance for world famous products... You'll receive profits in proportion to your own efforts and ability.

### • Control Your Own Security

You will take over a business that you can run yourself as an individual businessman. Your desire to succeed and your will to work are the factors that will control your future.

### • Become a Leader in the Community

Many a Service Station Operator is president of civic groups—president of local lodges—mayor of his town—Scoutmaster—leader in P.T.A.

### • Own a Substantial Business with a Small Investment

You will operate a business worth many thousands of dollars for a small capital investment. Your investment is only in stock and tools.

### • Financing and Training Available

And another advantage—experience is not a factor. Many men who had no previous service station experience are successful dealers today.
